Spitex Kanton Zug is a private association acting on behalf of the communities of Canton Zug to provide help and care at home.

On 365 days a year, we support people of all ages in their own homes. The round the clock nursing service supports those affected by illness, accident and disability, maternity, overload situations or diminishing strength. It also enables us to sustainably alleviate the burden on the carers of our customers.

We offer comprehensive support and guarantee security in the areas of basic and treatment care, specialised care, housekeeping, and support as well as a fresh meal delivery service. We place the highest value on professionalism and quality for these services.

Nursing care

- General care: Help with dressing, bathing and showering, eating and drinking and personal hygiene, positioning, physical exercises, mobility, etc.
- Medical care: Monitoring vital signs (pulse, blood pressure), injections, administering medication, dressing wounds etc.
- Palliative care: prevention and alleviation of suffering, early detection and ongoing assessment and treatment of pain, etc. for an improved quality of life for people and families confronted with a severe, progressive illness.
- Psychiatric care: Supporting people with mental illnesses on their way to a self-determined, hopeful and meaningful life.
- Dementia: support for those suffering from dementia as well as their carers.

Domestic care

- Housekeeping: Cleaning, watering plants etc.
- Laundry and ironing etc.
- Nutrition: Shopping, menu-planning etc.
- Providing respite care to ease pressure on carers or for parents after birth.

Fresh Meals

- Spitex Kanton Zug delivers high-quality fresh meals on a daily basis. These consist of soup, salad, main course and dessert.

Advice and guidance

- Professional advice and guidance in all areas e.g. care, support, household management and nutrition.
